<b>Intermediate</b>	Liquid, Java, C++, C	AngularJS, BabylonJS, CanJS	Kubernetes, Helm, Postman

## EXPERIENCE

### SOFTWARE DEVELOPER

Auvik

01/2023 - 09/2023

Waterloo, Canada (Remote)

Collaborated as a frontend specialist in an agile team with a primary focus on account management and the consolidation of legacy code into a unified platform. Executed a wide range of tasks from minor microservice updates to leading full project lifecycles.

**{ React, TypeScript, HTML, CSS, Jest, Storybook, GraphQL, GoLang, AWS, Docker, Kubernetes, Helm, JIRA, Gitlab }**

- ❖ Contributed to Auvik's SaaS platform and microservices emphasizing security and role management standards
- ❖ Led project to rebuild legacy payment form and enhance payment options with React, GraphQL, and GoLang
- ❖ Seamlessly integrated third party iframe into Auvik's design despite strict constraints using strategic CSS
- ❖ Commended by design team for my dedication to design details when developing UI components from mockups
- ❖ Developed robust React components and custom hooks with extensive documentation and testing for ease of use
- ❖ Implemented microservices to handle database queries and API requests using GraphQL, GoLang, and Kubernetes
- ❖ Persistently addressed tech debt, risks, and improvement opportunities during sprint grooming and retro meetings

### JAVASCRIPT CONSULTANT

Bitovi

11/2021 - 11/2022

Chicago, USA (Remote)

**{ React, TypeScript, JavaScript, HTML, CSS, Jest, Storybook, GraphQL, NextJS, Redux, NodeJS, Material UI, Chakra UI, JIRA, GitHub }**

Engaged as a versatile developer and consultant within Bitovi's React Department, serving an array of diverse clients. Proficiently managed a broad spectrum of frontend React projects from short-term individual assignments to substantial, collaborative endeavors within agile teams.

- ❖ Collaborated with a small team to design architectural patterns and develop a white-label React application and shared component library using Redux, TypeScript, and Charts.js
- ❖ Conducted rigorous testing using Jest and leveraged Storybook to showcase UI components and their various states
- ❖ Represented Bitovi during virtual events and delivered [live presentations](#) on open-source libraries like Storybook and react-to-webcomponent
- ❖ Contributed to Bitovi maintained open source libraries like [StackStorm](#) and [react-to-webcomponent](#)
- ❖ Designed a senior-level take-home test and rubric for a client to assist their hiring process

## FULL STACK DEVELOPER

04/2020 - 11/2021

Richmond Day

Toronto, Canada (Remote)

{ jQuery, JavaScript, HTML, CSS, Bootstrap, ASP.NET, C#, Entity Framework, AJAX, SQL, WordPress, PHP, Liquid, JIRA, GitHub }

Collaborated closely with project managers and designers to plan, develop, and maintain websites for an extensive and distinguished clientele, including industry leaders such as MINI, BMW, and LG.

- ❖ Developed scalable, database-first applications primarily using ASP.NET, SQL, and jQuery
- ❖ Created interactive web components using JavaScript and customized open-source libraries
- ❖ Implemented pixel-perfect, responsive designs from PSD mockups provided by designers

## FREELANCE WEB DEVELOPER

05/2018 - 04/2020

Self Employed

Toronto, Canada (Remote)

{ jQuery, JavaScript, HTML, CSS, Bootstrap, WordPress, PHP, Figma, Photoshop, Illustrator }

Cultivated client relationships, gathered project requirements, facilitated contract negotiations, and consistently delivered websites, primarily leveraging WordPress and custom themes.

- ❖ Managed deployment and hosting of web domains as well as SEO, contact forms, and eCommerce
- ❖ Worked closely with non-technical clients to gather requirements and create mockups true to their vision and budget
- ❖ Delivered websites from conception to production within timelines as short as three days

## JUNIOR WEB DEVELOPER

07/2018 - 11/2019

LBC IT Solutions, Inc

Toronto, Canada

{ VueJS, React, jQuery, JavaScript, HTML, CSS, Bootstrap, ASP.NET, C#, Entity Framework, SQL, WordPress, PHP, Trello, Bitbucket, Azure }

Worked in a small development team to deliver large-scale web applications as well as WordPress websites for clients.

- ❖ Developed a dynamic, data-driven, MVC web application for Telus using ASP.NET Core and VueJS
- ❖ Collaborated on a React application for Air Canada capable of fetching and displaying article data from Contentful
- ❖ Independently built and launched a WordPress website for a client with a fully customized theme using Isotope.js

## SOFTWARE DEVELOPER INTERN

01/2017 - 07/2017

PWC Technology Services, Inc

Scarborough, Canada

{ jQuery, JavaScript, HTML, CSS, Bootstrap, AJAX, MySQL, PHP }

Collaborated in an agile development team contracted by Scotiabank and worked independently on web applications.

- ❖ Actively participated in scrum meetings and consistently completed sprint tasks ahead of schedule
- ❖ Developed web application capable of making API calls using AJAX and rendering nutritional information data

## EDUCATION

### COMPUTER PROGRAMMER - DIPLOMA

09/2015 – 05/2018

Seneca College

Toronto, Canada

Excelled as a team player and leader for multiple group projects and learned the fundamentals of programming (OOP), web development, networking, database design, normalization, and collaboration.

- ❖ Made the dean's list and graduated with honors
