EDUCATION

COMPUTER PROGRAMMING & ANALYSIS - DIPLOMA   *September 2015 – May 2018*
Seneca College   Toronto, Canada
Learned the fundamentals of programming, web development, and data structure. Collaborated in an agile environment during an 8 month co-op internship at PWC Technologies as a Software Engineer.

WORK EXPERIENCE

SOFTWARE DEVELOPER   *January 2023 – September 2023*
Auvik   Waterloo, Canada (Remote)

Served as a full-stack developer in Auvik's agile PACT (Platform Account Management) team. I managed a wide range of tasks from minor Core updates to overseeing complete project lifecycles.

❖ Contributed to Avuik's SAAS platform, emphasizing security and role management standards

❖ Led project to rebuild legacy payment form solution with React and enhance payment options

❖ Seamlessly integrated Zuora iframe into Auvik's design despite strict constraints

❖ Developed robust tests with reusable, modular tools for GraphQL, custom hooks, and APIs

❖ Contributed to backend APIs with GraphQL, GoLang, and Kubernetes

JAVASCRIPT CONSULTANT   *November 2021 – November 2022*
Bitovi   Chicago, USA (Remote)

Worked within BItovi's React Department as a developer and consultant for a diverse set of clients. I handled a wide spectrum of projects from short-term solo tasks to extensive agile collaborations.

❖ Created future-proof React solutions using TypeScript with a focus on technical excellence

❖ Conducted rigorous testing with Jest and leveraged Storybook to showcase UI components

❖ Delivered live presentations on open-source libraries like Storybook and react-to-webcomponent

❖ Contributed updates to open source libraries, including StackStorm and react-to-webcomponent

❖ Designed a senior-level take-home test and rubric for a client's hiring process

FULL STACK DEVELOPER   *April 2020 – November 2021*
Richmond Day   Toronto, Canada

Collaborated in a development team with project managers and designers to create/update websites for clients like MINI, BMW, Rapid, and LG.

❖ Developed scalable, data-driven applications primarily with ASP.NET Framework

❖ Created interactive web components with JavaScript and customized open-source libraries

❖ Implemented pixel-perfect, responsive designs from PSD mockups provided by designers

❖ Managed deployments, migrations, and AWS database updates via SFTP

HOBBIES & INTERESTS
